### Plan for Improvement

#### Action 1:

There are advanced Physical Education courses that are state approved that could be added to the Master Schedule.

#### Action 2:

Investigate options that would allow every student to enter the academic day with breakfast.

#### Action 3:

Investigate the possibilities of partnering with nearby clinics to help offer school-based health services.

#### Action 4:

Coordinate with our custodial staff, maintenance staff, and current pest control company to ensure that potential pest infestations are prevented, controlled, and exterminated.

#### Action 5:

Purchase and promote a greater variety of health snacks and meals for our staff during times of professional development / mandatory training or events.
